

Key partners

What are your key partners to get competitive advantage?

Academic & research institutions (domain expertise, pilot projects)

Mohamad Fatfat

Tech providers (cloud computing, GPU/hardware)

Scientific data & literature sources (Semantic Scholar, PubMed)

Regulatory & safety experts (compliance, sandboxing)

Industry collaborators (pharma, biotech, private R&D)

Key activities

What are the key steps to move ahead to your customers?

R&D of multi-agent architecture & RL-based coordination

Andreou Chrysis

Integration & deployment (APIs, pilot testing)

Safety & compliance (sandboxed environments, oversight)

User engagement & support (training, feedback loops)

Value propositions

How will you make your customers' life happier?

Accelerated scientific discovery (faster hypothesis testing)

Chrysostomou Michalis

Enhanced creativity & rigor (multi-agent debate)

Cost & resource efficiency (less manual review)

Seamless integration (API-driven, fits existing workflows)

Continuous improvement (reinforcement learning)

Customer relationships

How often will you interact with your customers?

Pilot & onboarding (high-touch training)

Mohamad Fatfat

Ongoing support (updates, dedicated assistance)

Collaborative enhancement (workshops, user groups)

Self-service options (online portal, documentation)

Customer segments

Who are your customers? Describe your target audience in a couple of words.

Academic & research institutions

MARIAM SAMY NAGEEB SA...

Pharmaceutical & biotech companies

Government & public research agencies

Private R&D organizations

Key resources

What resources do you need to make your idea work?

Advanced AI platform (multi-agent, RL framework)

Mohamad Fatfat

Computational infrastructure (cloud, GPUs)

Expert team (AI researchers, domain specialists)

Data access & partnerships (literature, databases)

Intellectual property (patents, proprietary algorithms)

Channels

How are you going to reach your customers?

Digital platform (cloud portal, APIs)

MARIAM SAMY NAGEEB SA...

Direct sales & partnerships

Conferences & workshops

Academic collaborations (joint research)

Online marketing (thought leadership, social media)

Cost Structure

Key expenses to operate, deliver value, and generate revenue, including fixed and variable costs.

R&D investment (multi-agent system development)

Andreou Chrysis

Infrastructure (cloud computing, HPC)

Personnel (AI researchers, developers, compliance)

Marketing & business development

Compliance & security measures

Revenue Streams

Sources of income through product sales, services, subscriptions, or other monetization methods

Subscription licensing (usage tiers)

Chrysostomou Michalis

Usage-based pricing (API calls, compute)

Consulting & integration services

Research grants & partnerships
